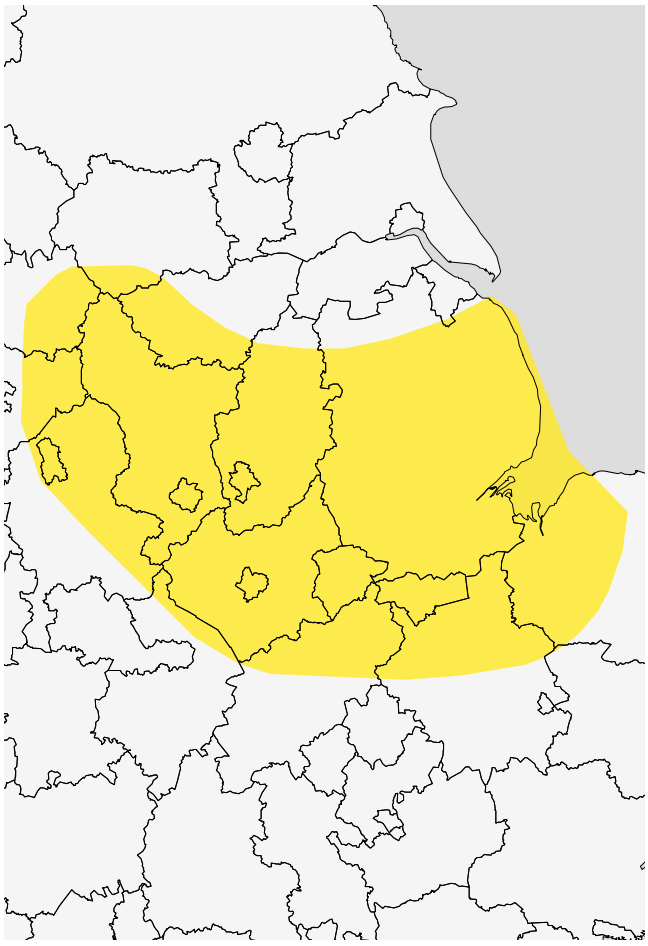
Yellow warning
Snow

Between
13:33 Fri 4 Dec 2020 and
23:59 Fri 4 Dec 2020



Outbreaks of rain, sleet, and snow may still cause tricky driving conditions

What to expect

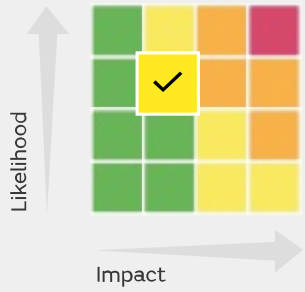
- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Increased likelihood of traffic collisions due to tricky driving conditions.

Further details

The area of wet weather currently across this region, with snow falling across higher routes (above 300 m), and potential for heavier bursts to bring temporary lying snow down to around 100 m above sea level. Accumulations are not expected to amount to more than a a few centimetres, and will often be transient. This wet weather will gradually move away late this evening and during the early hours of Saturday.

Reason for update

Warning extended for the rest of the evening in view of snow continuing to fall in some places.



Medium likelihood of low impacts
